## BOREAS TE-02 ROOT RESPIRATION DATA

[Get Data](#)

### Summary:

The BOREAS TE-02 team collected several data sets in support of its efforts to characterize and interpret information on the respiration of the foliage, roots, and wood of boreal vegetation. This data set includes means of tree root respiration measurements on roots having diameters ranging from 0 to 2 mm conducted in the NSA during the growing season of 1994.

A guide document which includes more information about this data set can be found at [http://daac.ornl.gov/daacdata/boreas/TE/te2trrsp/comp/TE02\\_Root\\_Resp.txt](http://daac.ornl.gov/daacdata/boreas/TE/te2trrsp/comp/TE02_Root_Resp.txt).

ORNL DAAC maintains information on the entire [BOREAS Project](#).
